

SDCC Website Update

Status Update and Next Steps

BROOKHAVEN SCIENCE ASSOCIATES

Public-Facing Website Resource for Liaisons and Users

- One repository for documentation to avoid information divergence & drift
- Users can submit and edit content to site, reducing need to repeat content on other sites
- Updated content for today's applications
- Rethinking IA and content organization for better usability and discoverability
- Clean, modern design

Action Plan

- Working on site architecture and content strategy in tandem
- Identify content owners and interested parties
Work with them to adapt and update existing content on current site
- Content Migration should begin in earnest
December, site widely available some time
January

Public-Facing Website Design Concept

Provides a cleaner, more modern organization that will improve discoverability and serve our users and the wider community.

Work to adapt design concept to Drupal theme is under way

Prototype at <https://webtest.sdcc.bnl.gov/>

Updated Page Templates

Software	NSLS2		Software	Projects			BNL Physics Department
Reporting Problems	RHIC			Related Sites			BNL User Center
	US ATLAS			Pictures			LSST Home Page
	USQCD			Jobs			US DEO Home Page
				Policies			
				People			
				Organization Chart			
				Facility Incident Reports			
				Contact SDCC			

What We Need

- We need your feedback! clepore@bnl.gov or lpelosi@bnl.gov
 - Services to highlight
 - Features that would be useful to the community (calendaring, web forms, email lists, etc.)
 - Design preferences/UX concerns
- Once site is stood up, we will need service providers and users to help us with content creation and migration
