

Workshop on Tau Neutrinos from GeV to EeV 2021 (NuTau2021)

Wednesday, 29 September 2021

Contributed talks I - This workshop will be held as a virtual event (13:20 - 15:30)

-Conveners: Thomas Kutter; Pedro Machado; Jeremy Hewes; Stella Oh

time	[id] title	presenter
13:20	[36] On the reliability of present predictions for tau neutrino fluxes	GARZELLI, Maria Vittoria
13:35	[37] Appearance of tau neutrinos in the near detectors due to the oscillations involving sterile neutrinos	GRZELAK, Katarzyna
13:50	[38] Constraining tau neutrino transition magnetic moments at DUNE	ZHU, Jingyu
14:05	[39] Kinematic Tau neutrino search at DUNE far detectors	KOSC, Thomas
14:20	[54] Break	
14:30	[40] Learning from Tau Neutrino Appearance at Long Baselines	KELLY, Kevin J
14:45	[41] Prospects for anomalous tau neutrino appearance searches at the DUNE Near Detector	RAJAOALISOA, Miriama
15:00	[42] New tau neutrino oscillation constraints on unitary violation	GEHRLEIN, Julia
15:15	[43] Constraining neutrino magnetic moments at the LHC	MAMMEN ABRAHAM, Roshan
