General Services Update - 1/21/21

- Ssh gateways: atlasgw & rssh - new logins are blocked since 1/1
  - A few users still logged in (some months long stale? sessions)
  - Plan to shut them off next week
- Unified MFA with PrivacyIDEA
  - Plan to put into production next Thursday morning, January 28th, 8-9AM
    - Existing Keycloak tokens preserved, deleting old test IPA OTP tokens (~10)
  - New NX ready: nx.sdcc.bnl.gov - will retire old NX in a few months
- Public website redesign
  - Theme & design basically finalized, feedback welcome
  - Almost done moving old docs over
    - Reminder: liaisons can login and be given editing rights
  - Talk after group reports for more details
