

## **Session Program**

**17 May 2021**

# **WSMON3: Cryo-EM at LBMS: Protein Structures, Protein-protein and Protein-cell Interactions**

***Session Chair: Dongyan Tan (Stony Brook University)***

Zoom link will be provided, Virtual Workshop

# Monday 17 May

10:00

## Session Chair: Dongyan Tan (Stony Brook University): Session Chair: Dongyan Tan (Stony Brook University)

**Session** | **Location:** Zoom link will be provided, Virtual Workshop

10:00–10:10

### Welcoming remarks

**Speaker**

Sean McSweeney

10:10–10:30

### Overviews of LBMS

**Speaker**

Liguo Wang

10:30–11:00

### Application and fabrication of mono-layer graphene grids in cryo-EM

**Speaker**

Xiao Fan

11:00–11:30

### Time-resolved cryoEM using Spotiton: a new take on a classic experiment

**Speaker**

Chase Budell

11:30–12:00

### Simple and robust methods for high-speed cryoEM specimen preparation

**Speaker**

John Rubinstein

12:00–13:00

### Lunch break

13:00
