

WSMON4: Ultrafast Pump Probe Optical Microscopy Techniques and their Applications in Nanoscience

Contribution ID: 3

Type: **not specified**

IMEC's AttoLab adaptation of ultrafast pump probe spectroscopy and lensless imaging techniques to study nanodevice fabrication and high energy radiolysis of photoresists

Monday 17 May 2021 10:35 (30 minutes)

Presenter: PETERSEN, John (IMEC, Leuven, Belgium)
