

# **Tools and Services Activity Summary**

## **Overleaf**

- Commitment from NPP and CSI, but still waiting for NSLS-II. Create webreq soon.

## **Indico**

- A working group is being formed by Ian Ballantyne. This group will address security issues with Indico and future directions

## **General Web Services**

- Created a public MatterMost channel for discussions and recommendations on the new website. For support (broken links, missing documentation, request for changes, etc), requests must be made through RT.
