ECCE Simulation/Computing Team

ECCE Simulation Structure

- No regular meetings, however physics/computing/simulation teams are working closely together to prepare data samples for analyzers
 - Hold “office hours” weekly to help new users get going. Have setup a GitHub [page](#) with tutorials, documentation, etc
- In the process of organizing GitHub repos and separating a lot of Fun4All-EIC code from the Fun4All-sPHENIX framework <https://github.com/ECCE-EIC> (and the main eic github)
- Currently exploring storage options for MC and simulated data with SDCC
- Mailing list signups :
 - ECCE-eic-public (general announcements) : sign up [page](#)
 - ECCE-eic-computing (ECCE computing) : sign up [page](#)
 - ECCE-eic-physics (ECCE physics/simulations) : sign up [page](#)
