Content of shipment

- INTT ladder *1
- Ladder transportation box *1
- Files
 - calibration results
 - Manual for taking the ladder out

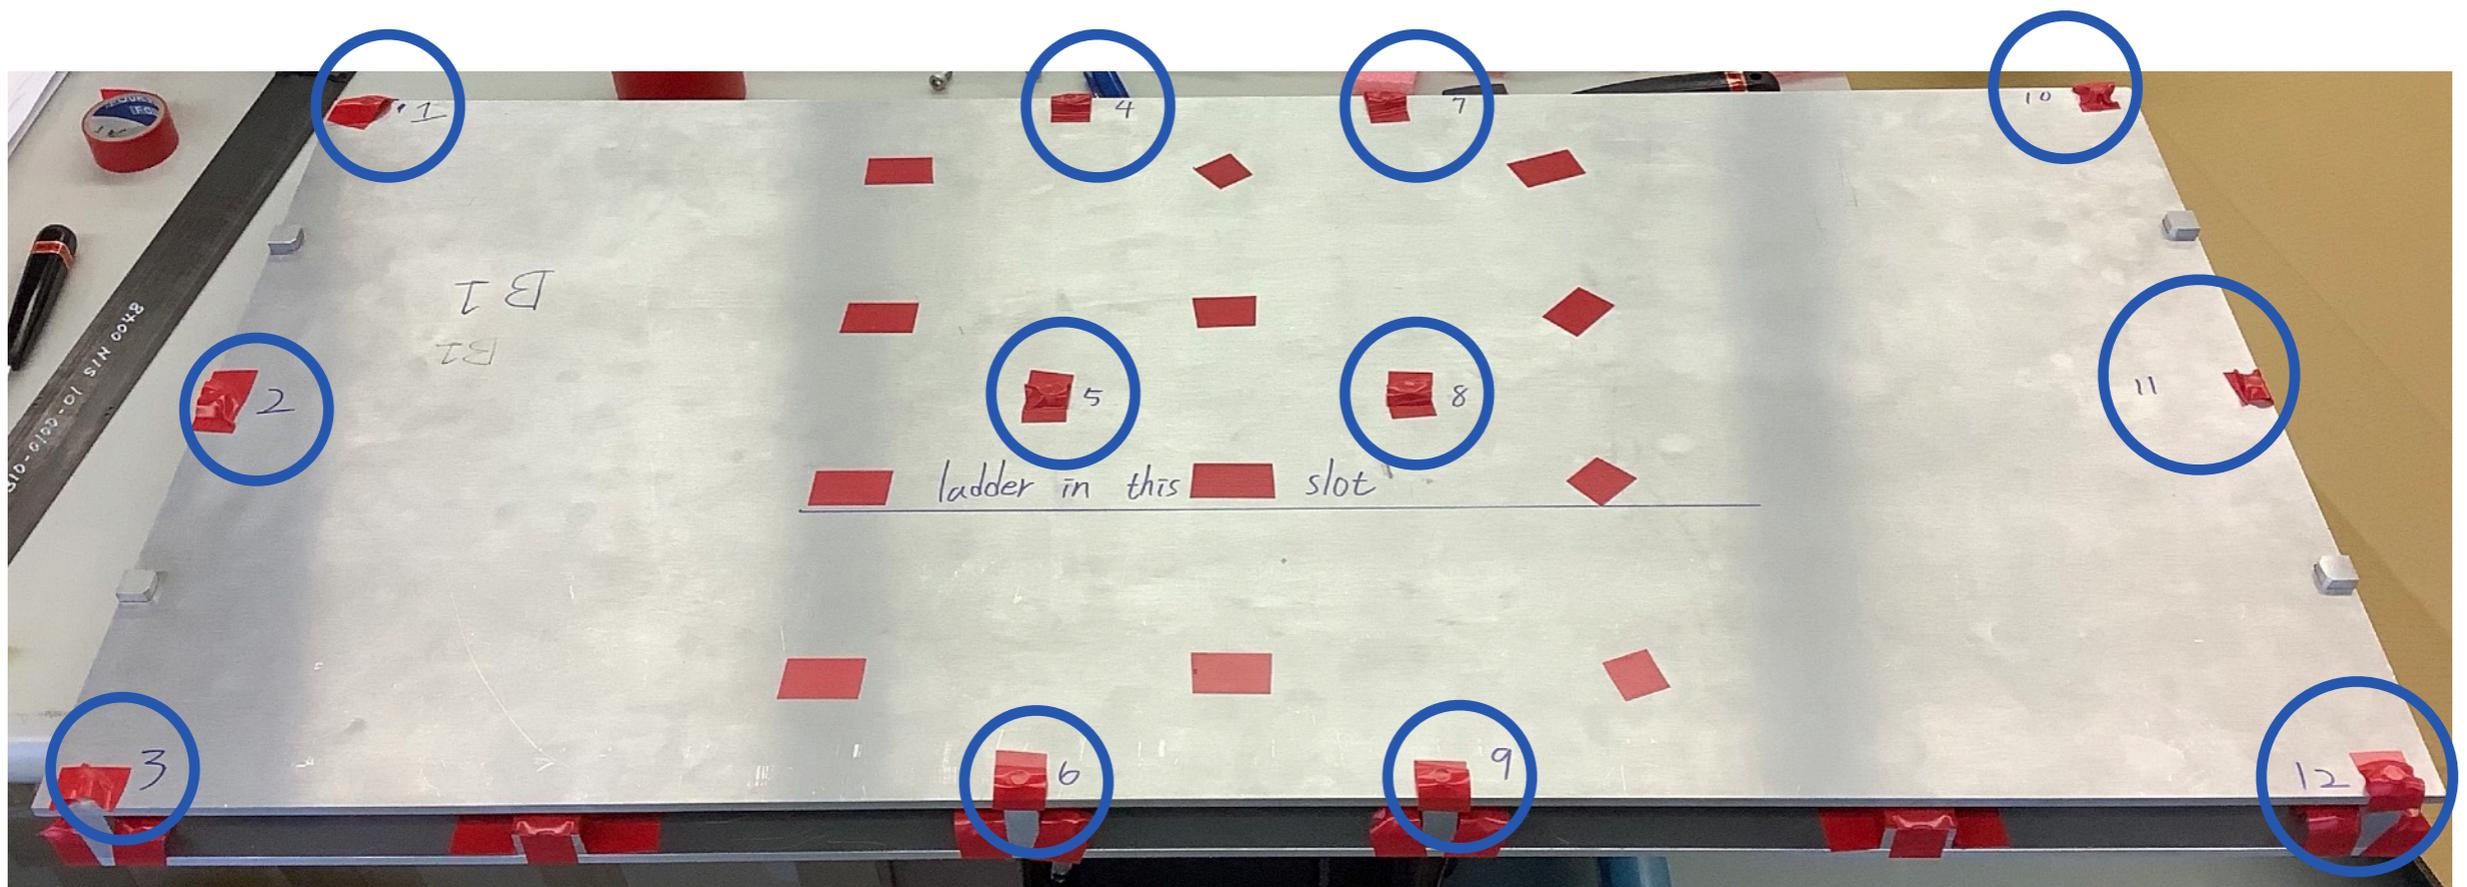

The method to fix the ladder

- The principle is to fix the ladder by foams. The foams apply some pressure to fix the ladder.

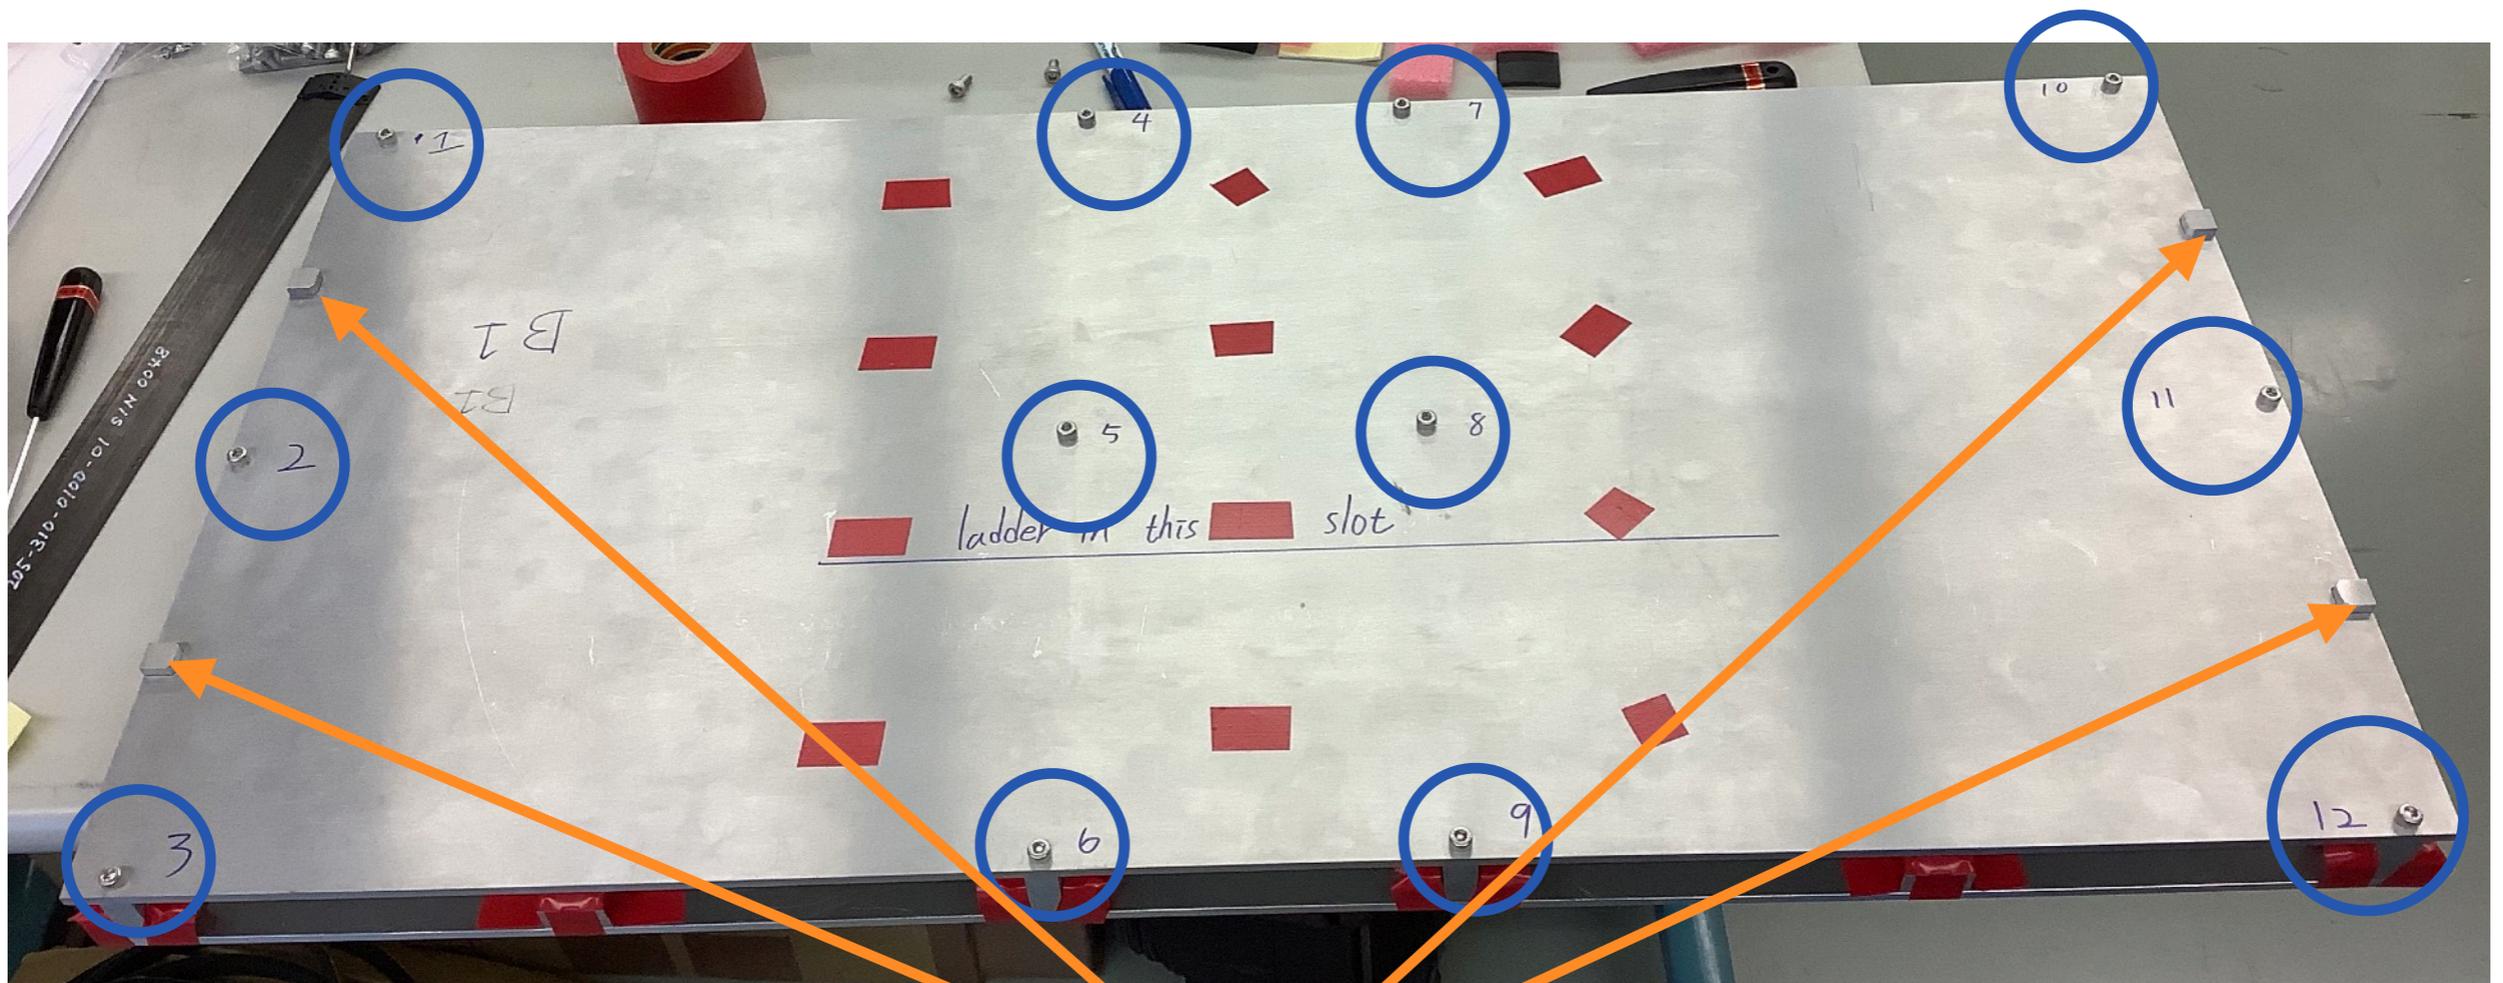

Procedures to open the box

- This is the TOP side of the box
- Please remove the red tapes labeled by number (12 tapes)

Procedures to open the box

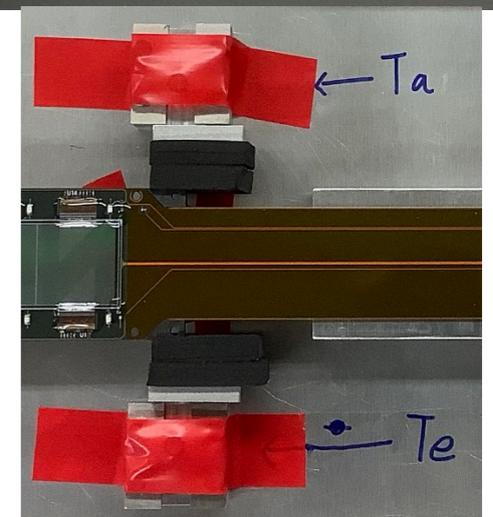

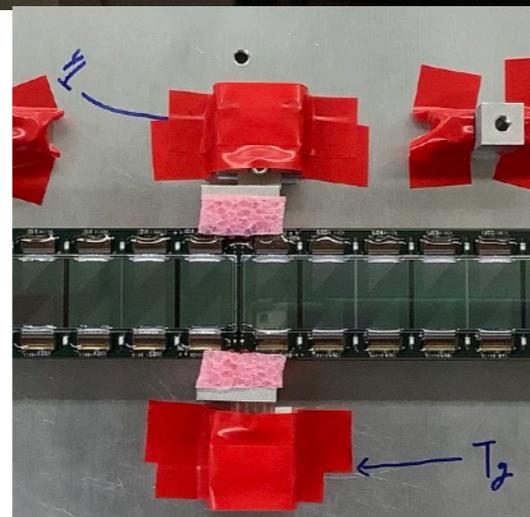

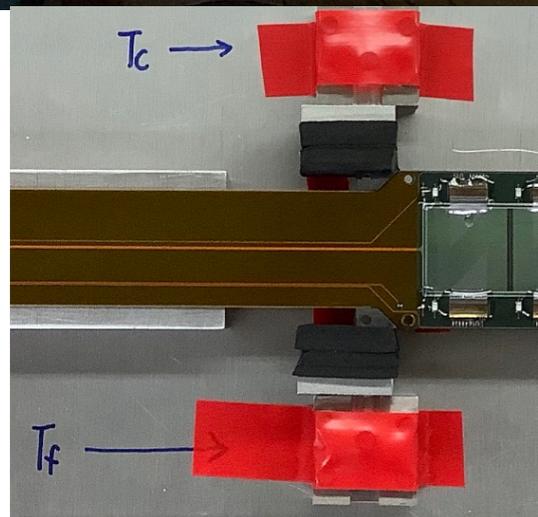

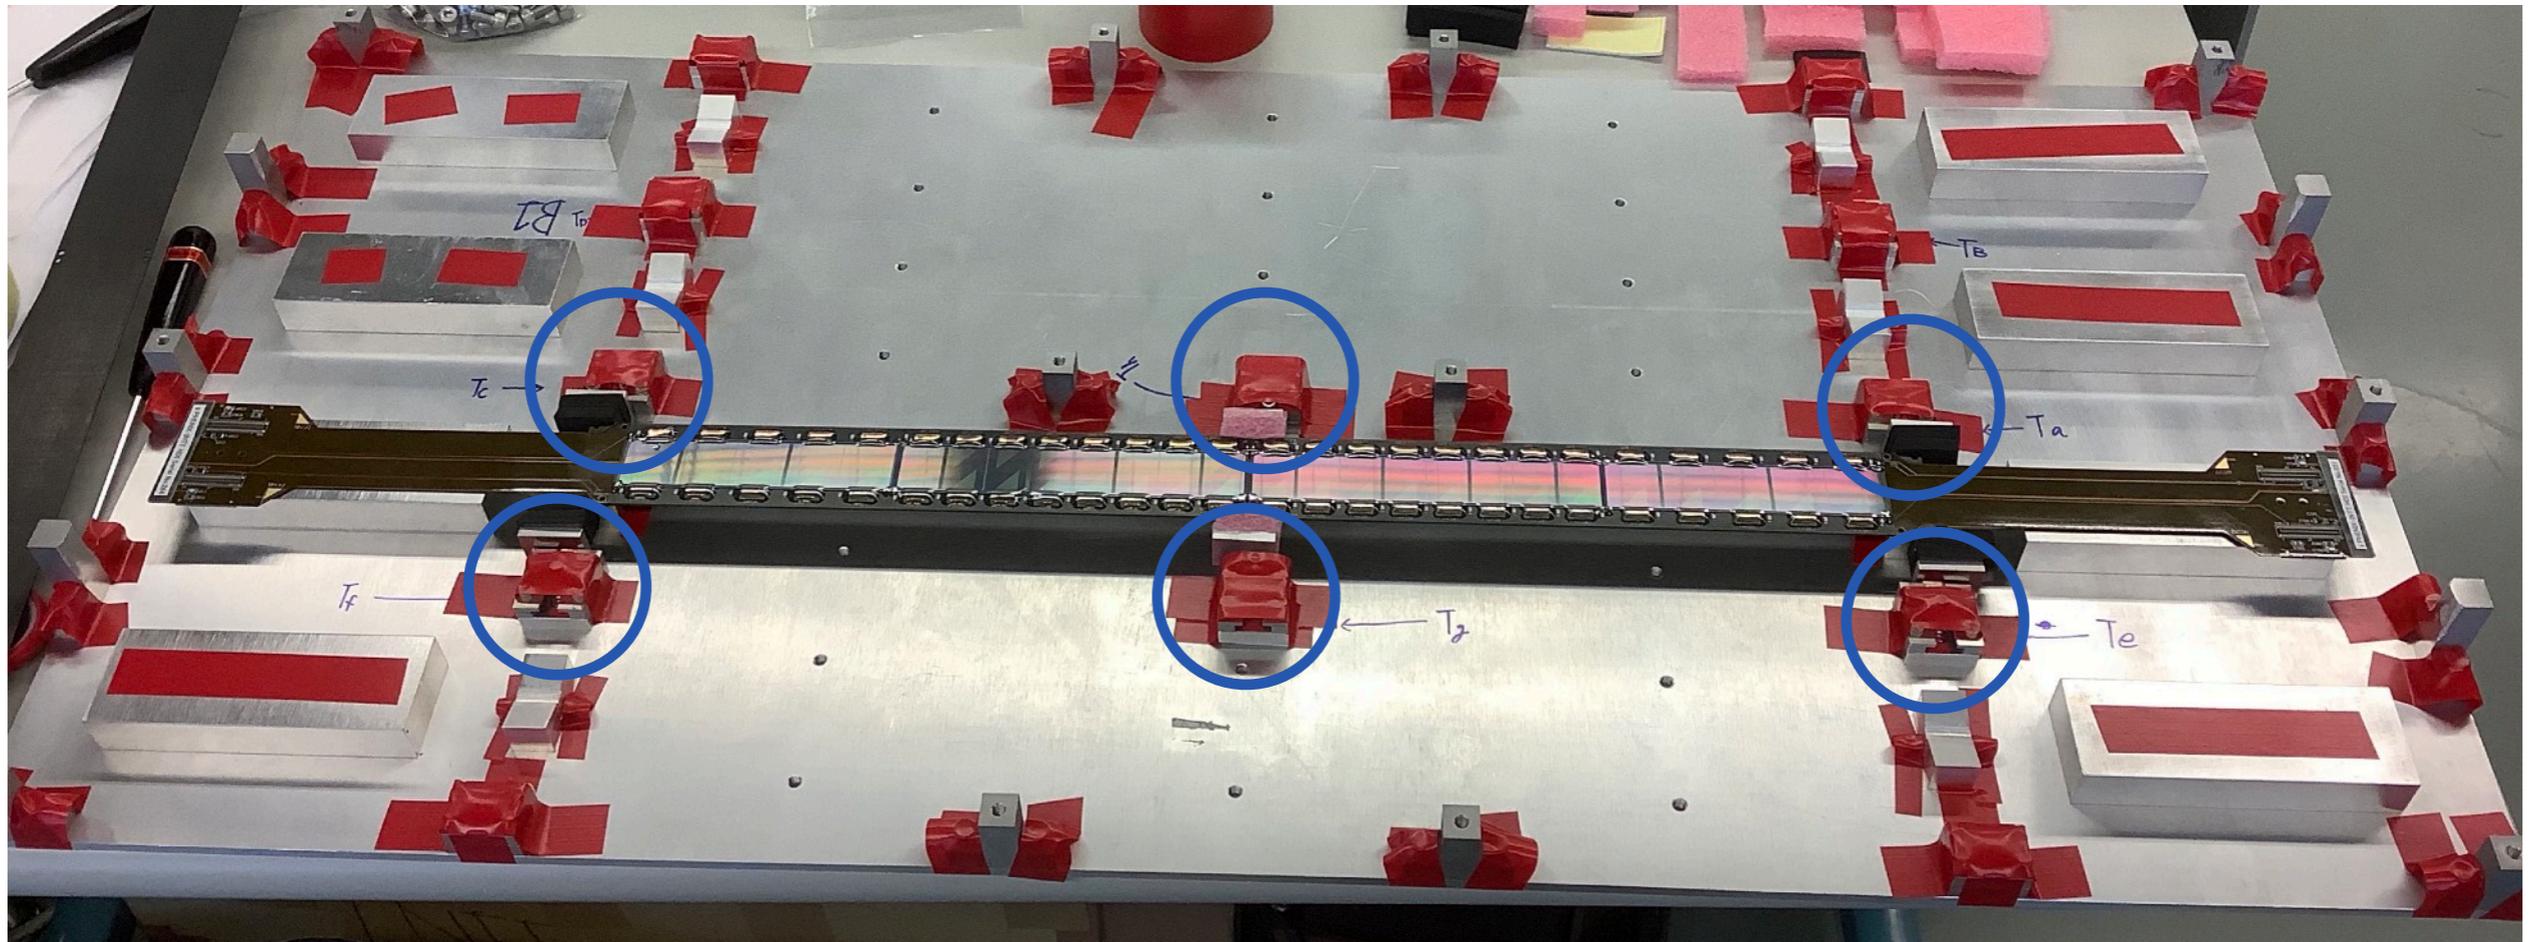

- Please remove the screws labeled by number (12 screws)
- Please lift the lid perpendicularly to remove the lid

Lid alignment pins

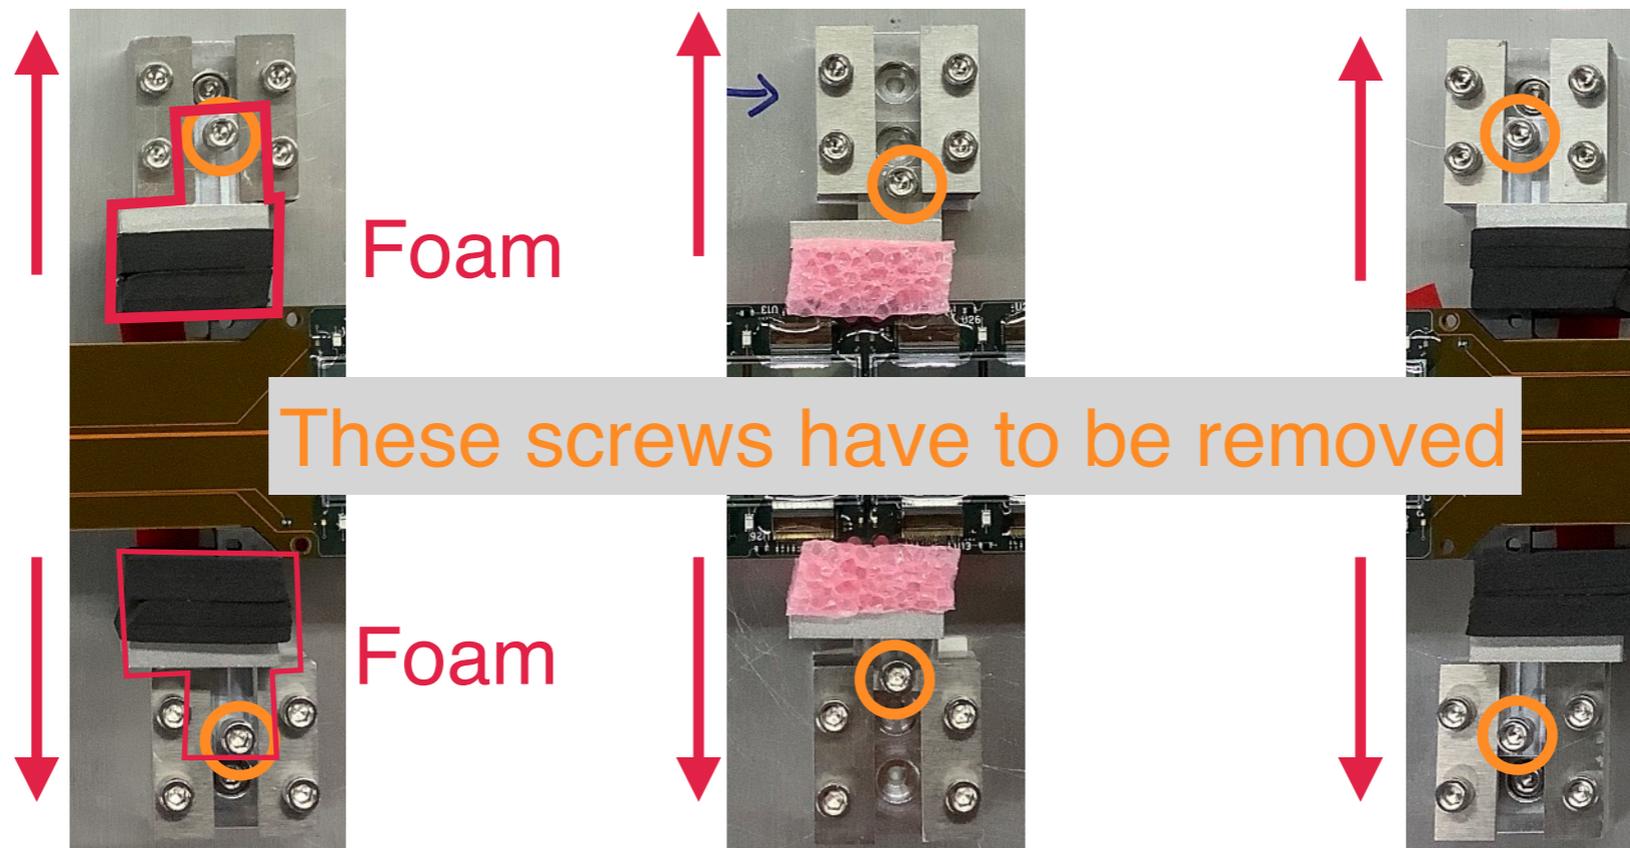

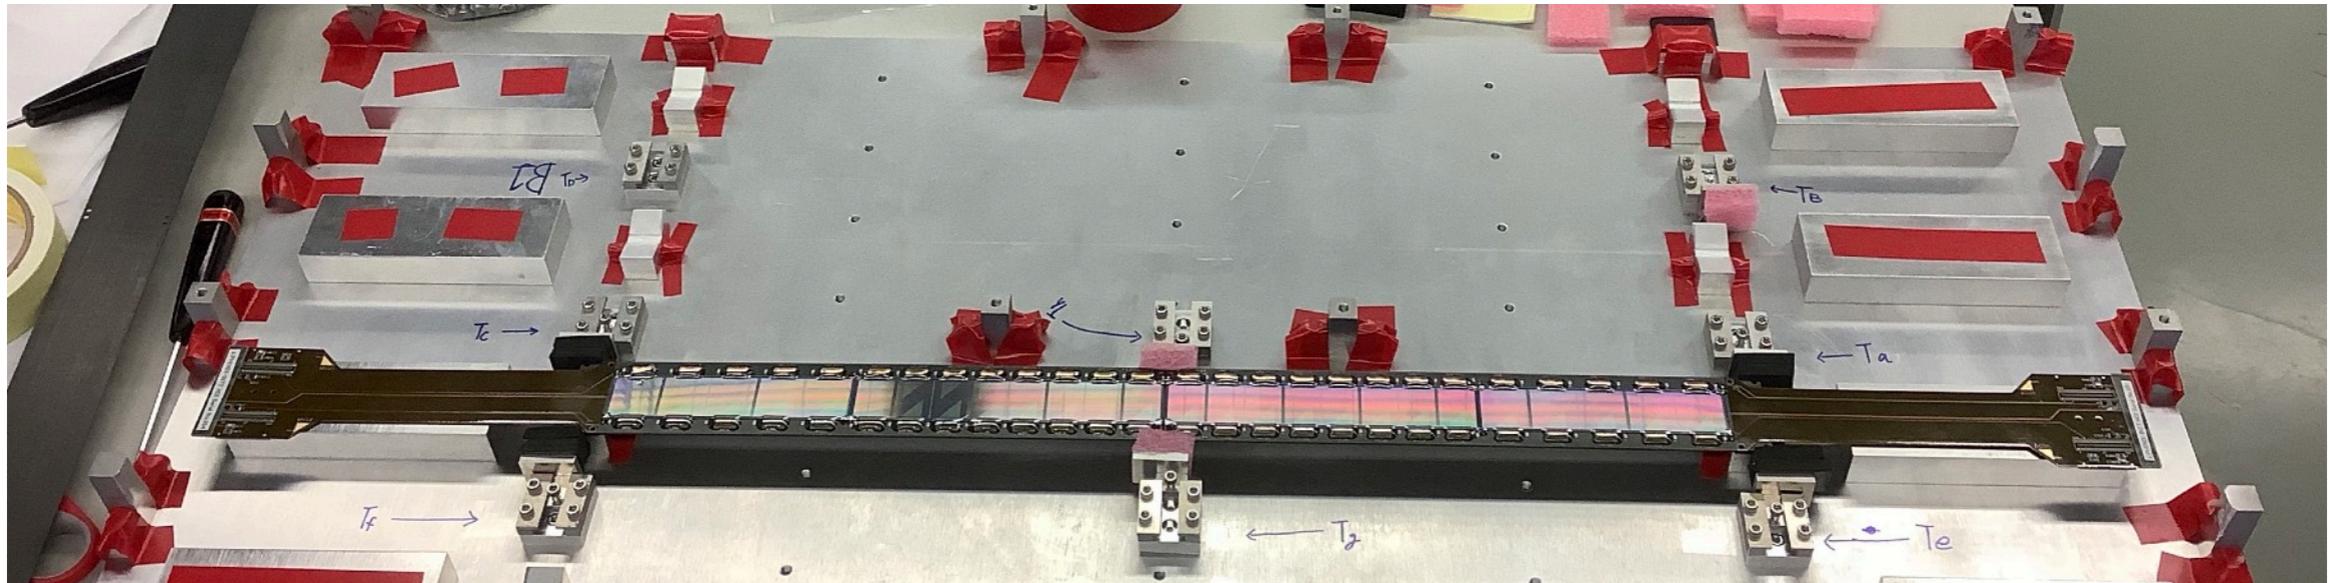

Procedures to open the box

- Please remove the tapes labeled with T_a , T_c , T_e , T_f , T_g , T_h (6 tapes)

Procedures to open the box

- Please remove the screws labeled with Ta, Tc, Te, Tf, Tg, Th (6 screws)
- Please move the foams backward from ladder

Attention

- The 3-pins adapter is outside the fixture.
- You may need to lift the tail of HDI a little bit when moving the ladder out from box, to avoid the jamming of the adapter and fixture.
