

# Simulation r6 main feature

- **Main physics campaign occurred today at 0 am.**
- **Newest detector stack**
- **Newest DST information support evaluator after burner**
- **New B0 implementation (done)**
  - Realistic geometry
- **New RP for IP8 (coming )**
  - Hole for the first RP, not 2nd RP
- **Backward virtual detector plane (available since 5.1)**

# Simulation Workshop #4 (Focused on PID)

---

- <https://indico.bnl.gov/event/13060/>
- **PID oriented**
- **Recording:**  
**<https://box.in2p3.fr/index.php/s/xqMrmJzmzdcxQ9E/download/4thEECSimWorkshop.mp4>**
