

Tools and Services Activity Summary

Overleaf

- PPM placed the order with Overleaf. Meeting with Overleaf this morning to discuss a BNL portal. Expect to provide guidance to users soon.

Indico

- ITD instance with federated access (BNL AD, SDCC, Google, and InCommon). All except CERN (via InCommon!) worked. Following up with ITD to debug. Meeting with BHSO to seek approval soon.

BNLBox

- Beginning in FY22, there will be charges above a certain disk storage quota. Threshold quota and rates TBD.

Digital Repositories

- InvenioRDM Long Term Support release planned for July 2021

General Web Services

- Developed a new theme for BNL box that reconfigures the login screen to make it more user-friendly and to help direct users to the login method that is correct for them. Theme was deployed on production last night.
- Begun designing phase II form (wireframes and proposed workflows) for IBM-Q project, with database store and form submission workflow.
