Software and Computing Meeting

Summary of meeting

- CORE has still not designated a rep. yet
- Main discussion was on EICUG talks next week (Joe has a slot for this)
 - DAQ activities (flash) - Jan Bernauer
 - Distributed DAQ system (ERSAP) - Vardan Gyurjyan
 - AI-enabled Physics Trigger System - Dantong Yu
 - AI/ML and Detector co-design - Cristiano Fanelli
- Also suggestion that perhaps Rucio could be a topic
- OSG went down over weekend, under investigation (don't know if this was BNL interface or global)
- Discussed having a common EIC computing communication channel (Discourse and/or Mattermost)
