

23rd International Congress on X-ray Optics and Microanalysis (ICXOM23)

Friday, 18 September 2015

Tomography - Berkner Hall, Auditorium (10:30 - 11:50)

time	[id] title	presenter
10:30	[59] Analysis of compartmentation and binding of metals in plants at physiological and toxic concentrations analysed in frozen-hydrated samples by μ XRF tomography and related techniques	KUEPPER, Hendrik
11:10	[60] Advances in Diffraction Tomography: deep sub-micrometer resolution	BONNIN, Anne
11:30	[61] Cryogenic Analysis of Frozen Hydrated Biological Tissue at the Hard X-ray Micro-Probe Beamline at PETRA III	GARREVOET, Jan
