

23rd International Congress on X-ray Optics and Microanalysis (ICXOM23)

Monday, 14 September 2015

Micro / Nano Probes I - Berkner Hall, Auditorium (13:30 - 15:10)

time	[id] title	presenter
13:30	[5] Recent developments and achievements at the TwinMic spectromicroscopy beamline of Elettra synchrotron	GIANONCELLI, Alessandra
14:10	[15] Table-top soft x-ray microscopy with a laser-induced plasma source	MUELLER, Matthias
14:30	[16] Microdiffraction mapping using versatile AFM and high resolution X-ray scattering setup	ZOZULYA, Alexey
14:50	[17] X-ray Spectroscopy with Very High Spatial Resolution at NSLS-II	THIEME, Juergen
