

# ECCG Minutes

Meeting from November 8th  
Cameron Dean

11/10/2021

**Software and Computing Meeting**

A horizontal teal line runs across the bottom of the slide, ending in an arrowhead pointing to the left.

# Upcoming meetings

- Next EIC computing meeting will be on Monday
  - Presentation from InvenioRDM developers
  - Discussion on document preservation at the EIC
  - Open floor
- We discussed that NPSS will have a meeting on “lessons learned”
  - The thought was to have this in the EIC public computing meeting session
- There was a higher-up request for a computing plan from each protocollaboration for 5 years
  - It was felt that they want a quantitative report rather than qualitative, ASAP.
  - Possibly for budgeting reasons
  - We felt it was more realistic that this would be delivered early next year (February/March)
- JLab will have an internal S&C review, do we need to pass any ECCE information on for this?
