

# IT Services Update - Liaison - 9/2/21

- MFA app push: test PrivacyIDEA, pam, etc. (Masood)
  - Test NX & ssh gateway with key or password+OTP/MFA?
- NX: OTP +/- window works in WebUI but not NXClient
  - Opened ticket with No Machine to debug problem (MZ & SK)
  - KDE log issue fixed - will check & cleanup user's home dirs
- Web: Update to Drupal version 9 is ready (Louis)
  - Upgrade [www.sdcc](http://www.sdcc) & other experiments over next 2 weeks
- IC GPFS will be upgraded this month: hardware arriving
- Rcf3: would like to retire by the end of CY2021
  - All replacement services in place except for campus ftp?
- Multiple user ldap accounts:
  - Identify all users with multiple accounts (same life/guest #) and select a primary/preferred account preference. Notify users in case they want to select alternate preferred account.
  - Initially this will be the account used for some web services.
