

IT Services Update - Liaison - 9/16/21

- NX: OTP +/- window works in WebUI but not NXClient
 - Still debugging & tracing the problem: IPA/pam/sss stack
 - Memory increased on nxcampus01 (kernel panic/reboot)
 - License was updated this week
- Web: Update to Drupal version 9 (Louis)
 - Update www.sdcc & others next week (transparent)
 - Reviewing/updating documentation on our website:
 - getting started, ssh, NX, Jupyter, Condor, Slurm, etc...
- IC GPFS & new RHEV setup ongoing (next few weeks)
- Belle2 CDB VM replacements: heavy functional & load testing is ongoing and progressing
 - Rucio instances were upgraded to latest minor version
- JIRA: working with ITD to setup AD logins
- Federated Jupyter: planning & test setup in progress
- dCache: dual poolManagers running now
 - seems to have helped, still debugging increased load/network
