

Section on General Performance (Between Det. & Physics Section)

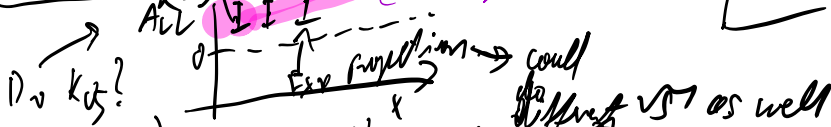

Origin of Spin

Option a) → Impact plot  $\vec{p}_T$  la  $\gamma R$

NB: How to decide the occupancy for Kaons?  $\Delta \sigma$ ? or Uncertainties  $\Delta$  Stat. Uncert

Option b) → Projections

Option c) → Sensitivity plots

3D Spatial Imaging

- Evolution → Remaining plots, Impact like  $\gamma R$ ?

- Sivers

↳ Projections

# Gluons in Nuclei

PDFs + Saturation / SIDIS

→ n PDFs : high impact but not clear  
if Adhena is special → Refer to  
general coverage

Saturation :
