

RBRC Workshop: Physics Opportunities from the RHIC Isobar Run

Wednesday, 26 January 2022

Morning session (09:00 - 11:40)

-Conveners: Bao-An Li

time	[id] title	presenter
09:00	[14] Overview of octupole deformation: what is it, where it is expected	ROBLEDO, Luis
09:40	[12] An overview of neutron skin physics from nuclear structure and reaction: method and implications	DANIELEWICZ, Pawel
10:20	[16] Measuring neutron-skin thickness with forward/backward rapidity neutrons in ultracentral relativistic isobaric collisions	XU, Jun
10:45	[11] Hydrodynamics and Bayesian Inferences in isobar collisions	VAN DER SCHEE, Wilke
11:15	[10] LHC results and connection to nuclear structure	ZHOU, You
