

IT Services Update - Staff - 11/18/21

- NX Client: failed login problems
 - convinced NoMachine the problem is on the client
- MFA push: working on changes suggested by ISSOs
 - will have test system ready in a few weeks
- Mattermost upgraded to version 6.1 yesterday
 - some new features, including better thread view (still beta)
- RHEV: setting up new storage
 - live migration is mostly working (campus VMs need new IPs)
- Belle2 Rucio: mod_gridsite cache problems (too big?)
 - was real cause of the past CA/CRL problems seen by clients
- Federated Jupyter: problems with CERN fixed
 - working IdPs: SLAC, FNAL, CERN
- Drupal: 2 Cosmo sites setup
 - issues upgrading sPHENIX (want theme from Drupal 5!)
