- **SPHENIX**
  - Enhance monitoring & analytics (billing db)
- **DUNE**
  - IPV6 enabled on doors

General Web Services
- Working with Louis Pelosi on revising the information architecture of the site to incorporate Charity's recommendations. The aim is to make the site more accessible to new users while retaining a sense of stability for longtime users.
- Mattermost poll of most requested services for inclusion on the home page has been closed. We are using the results of this poll to inform changes to the SDCC home page as part of our broader reorganization project. Changes should roll out January 2022.
- Theme and template changes to sPHENIX website per stakeholder request.
