

Outlook

- Have such a workshop regular? Then how often?
- Set up a mailing list (to distribute R&D results, etc.)?
- Think of a consortium-like structure?

- Exchange ideas, designs, equipment, ..?
- Share data samples and / or data analysis codes?
- Coordinate the activities, to some extent (avoid duplication of efforts, etc.)?
- Join each other's beam tests?

- ..?

- Suggestion from this workshop: standards!!!
