

# Plans

## Communication options:

- Email list – use CherenkovPID or make our own?
- Messaging: Slack / Mattermost

## Meetings

- As needed?

## Action Items:

- Make standalone DD4hep dRICH (or initial integration with any DD4hep Project Detector / ECCE port) – [Chris](#)
- Validate Fun4all GDML-imported dRICH – [Sebastian / Jin](#)
- Revive Juggler + IRT – [Chandra / Alexander](#)

## Next Meeting:

- Provide tutorial for DD4hep and Fun4all implementations
- Decide what to do next
