

1. Duration of term – frequent rotation

1. Stagger the terms

2. 6 months?

3. Difference in UG and grad or postdoc

- Institution members and “general”/UG/Postdoc representatives that rotate on different terms?
- 1 per institution and X general? “Replace” each term? Replace Y general every term?

2. How often to meet

1. Depends on the length of term and vice-versa

- Once a month? Less frequent around exam times?
- Should probably hold a “general” meeting once per 6 month term/per year for all members to attend?
- JSci Seminar session - On a schedule? On demand? Good opportunity to practice talks. Invite speakers such as other students (from outside EIC Canada)?

3. Assignment of responsibilities

4. Officers? Tribunal, co-directors

- Postdoc/Senior members limited in roles? Shouldn’t default to a seniority based hierarchy in roles in any way

5. Ability to form subgroups (organize themselves)

6. Should institutions have to have a certain type of election

- Elections somewhat dependent upon number/makeup of members
- If one member per institution - makes sense to have elections by institution? Postdocs/UG vote on Postdoc/UG member(s)? Broader vote?
