

# Experimental setup in MT6.2C

TSW?

Planacon #1		available (by Argonne)
Planacon #2	☀	available (by INFN)
GEM tracker		available
LAPPD		in production
Aerogel [+ Fresnel lens mockups]		available (by GSU), arrived to BNL
Scintillating counters		available
HRPPD		(still) hope to get it ready by mid June
HRPPD enclosure	☀	ready
Readout boards (bare)	☀	in Jamaica, NY
Readout board assembly	☀	ordered

- DAQ, online monitoring, analysis:
  - V1742 cross-module clock synchronization ...
  - ... and signal timing synchronization
  - DRS4 readout for the beam line Cherenkov's
  - DAQ VETO logic (use RS232)
  - Readout board mapping files
  - Online display
  - Near-online (interactive & "batch") analysis
  - Tracker DREAM driver debugging
