

RBRC Workshop on Lattice Gauge Theories 2016

Friday, March 11, 2016

3/11 morning: Session 9 - Bldg. 510, Large Seminar Room (9:00 AM - 10:30 AM)

-Conveners: Frithjof Karsch

time	[id] title	presenter
9:00 AM	[17] Towards understanding QCD phase diagram from the fluctuations of conserved charges	SHARMA, Sayantan
9:30 AM	[20] Calculation of Hadronic observable with Canonical approach in finite desity lattice QCD	SUZUKI, Asobu
10:00 AM	[22] QCD energy momentum tensor at finite temperature using gradient flow	TANIGUCHI, Yusuke

3/11 morning: Session 10 - Bldg. 510, Large Seminar Room (11:00 AM - 12:05 PM)

-Conveners: Tomomi Ishikawa

time	[id] title	presenter
11:00 AM	[18] Strong coupling constant from vector vacuum polarization function on the lattice	SHINTANI, Eigo
11:30 AM	[2] Neutron EDM from dimension 5 operators	BHATTACHARYA, Tanmoy
12:00 PM	[30] Closing
