

Dear all,

Here is the minutes from today's meeting.

o Convention <Joseph>

- **Takashi** will provide to Joseph the hardware chip-ID information.
- **Itaru** will renew the packet-ID based on 1 packet-ID/1 felix board philosophy. **Itaru** talks to Raul to requesting to inject ladder ID into the datastream at FELIX.
- Don't touch Geant get functions for the time being until unpacker available.

o Barrel Ladder QA <Misaki>

- The 4th layer assemblies are completed. West barrel is done with testing and east side are to be tested next.
- **Joseph and Milan** will develop the ladder QA database to be available on the web.

o LVDS Terminator and other topics <Itaru>

- The LVDS terminators are under design by Hayashi-REPIC. 3 pieces of 4 different type terminator prototype-I are expected to be delivered by middle of October.
- **RIKEN crews** will investigate more about the cause of the noise by lapping ROC board with an aluminum foil.
- **Cheng-Wei** will post Master's thesis (written in English) on INTT wiki.

Best regards,

-itaru
