

DANCE Capture Data Test

- Mosby's data Oct. 2015
 - from URR to 1 MeV
 - URR parameters slightly adjusted
 - CoH3 calculation given to the high energy part
 - Soukhovitskii 2005 potential
 - fission adjusted
 - M1 scissors mode included
- CIELO file issue
 - Inelastic scattering exists in URR, but total does not have it
 - Cross section fixed from 9 to 30 keV
