

Tentative Program

Exclusive + Diffractive + Tagging WG

- Overview talk – Axel (or one of the other convenors) 10+2'
- Diffractive VM Simulation Results – Kong Tu 10+2'
- Event Generation Corrections – Mark Baker 10+2'
- Physics Talks
 - Meson Form Factors – Stephen Kay 10+2'
 - Time-like Compton Scattering – Daria, or other speaker tbd 10+2'
 - DVCS – speaker to tbd (Glasgow) Back-up

Update from the Working Group

- Meeting on Monday (12/12)
 - Kong presented simulation results for diffractive ϕ production in eAu
 - Re-clustering can make huge improvements on $|t|$ resolution, resolving diffractive minima.
