

Magnetic field

Zhengqiao Zhang

- Check the magnetic field in the position of HRPPDs in the EPIC solenoid for pfRICH and also check it for mRICH and hpDIRC (DONE);
- Check the field for dRICH, will finish this in a few days;
- LAPPD / HRPPD magnetic field measurements will happen in Argonne in February, I would work together with Mark Popecki on the data analysis. (Not sure if we can finish it before March 5th);
