# Search for baryon junctions in isobar collisions at EIC

Niseem Magdy, Prithwish Tribedy, Zhangbu Xu,  
Roy Lacey, Wenliang Li, Abhay Deshpande

## What carries the baryon quantum number?

Valence Quarks?  
Stop the quarks to stop  
a baryon.

Gluons?  
Stop the junction to stop  
a baryon.

Tracking the origin of baryon number with the EIC  
Zhangbu Xu, May 19, 2023, 8:55 AM

# Can gluons carry the flow of baryon number?

P. Tribedy, CETHNEP, VECC, Nov 15, 2022

- Baryon-junction will be stopped at  $y \sim 0$  (low  $pT$ )
- ✓ Large  $N_{\text{Baryon}}$  at midrapidity

## How do we set an experimental test

J. Brandenburg, N. Lewis, P. Tribedy, Z. Xu, arXiv: 2205.05685

- Valence quarks carry electric charge; do they also carry a baryon number?
- Electric Charge (Q) vs. baryon (B) stopping in  $e+A$  collisions
  - ✓ Naive expectations:

$$R = \frac{B}{Q} \times \frac{Z}{A}$$

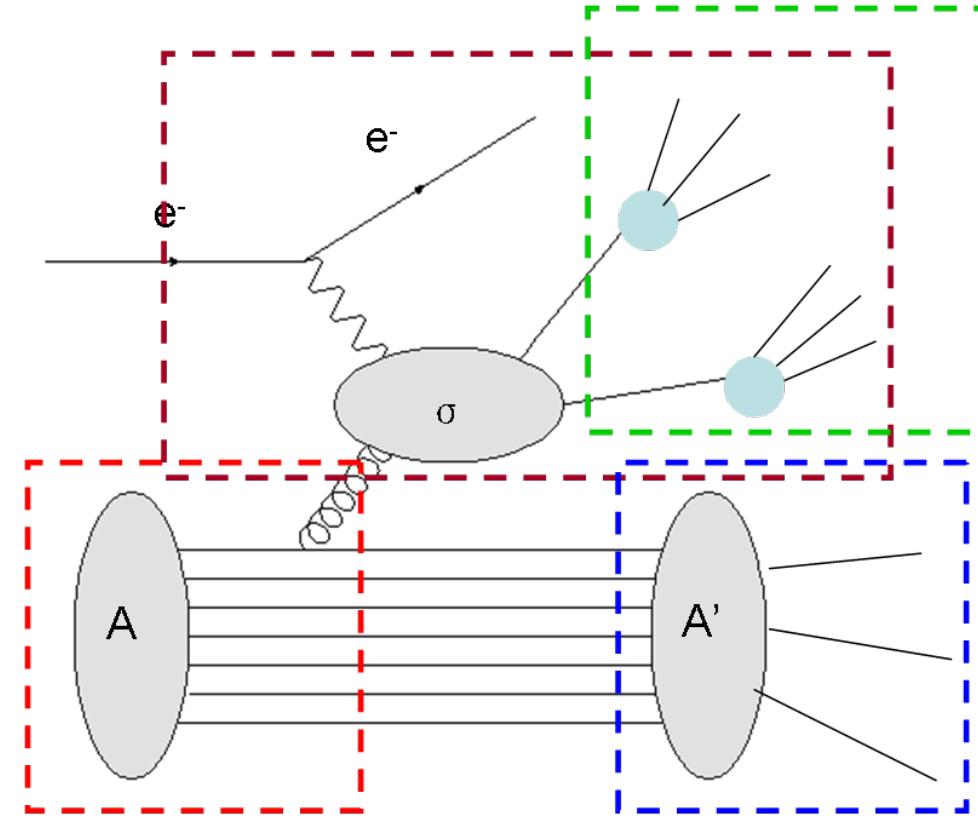

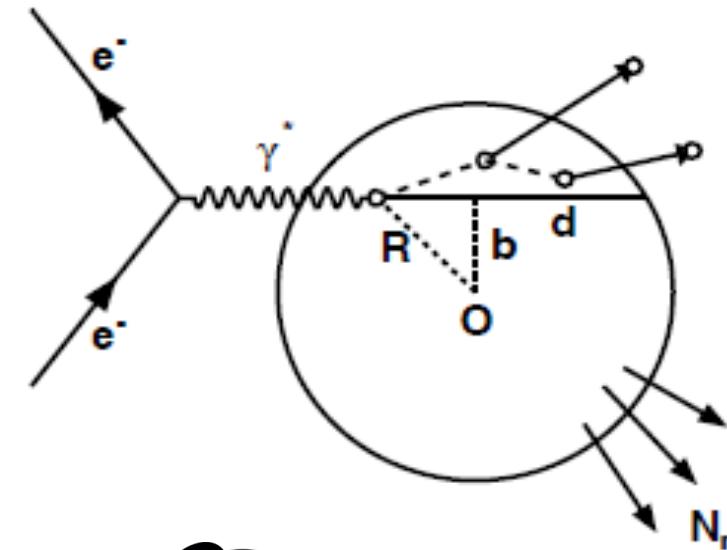

$> 1$ ; gluons carry the flow of baryon number

$< 1$ ; quarks carry the flow of baryon number

## The BeAGLE model

PRD 106, 012007 (2022)

A hybrid model consisting of DPMJet and PYTHIA with nPDF EPS09.

Nuclear geometry by DPMJet and nPDF provided by EPS09.

Parton level interaction and jet fragmentation completed in PYTHIA.

Nuclear evaporation ( gamma deexcitation/nuclear fission/fermi break up ) treated by DPMJet

Energy loss effect from routine by Salgado&Wiedemann to simulate the nuclear fragmentation effect in cold nuclear matter

In BeAGLE, quarks carry the flow of baryon number.

Proposing: the collision of isobars (same baryon B, different charge Q) to achieve best precision

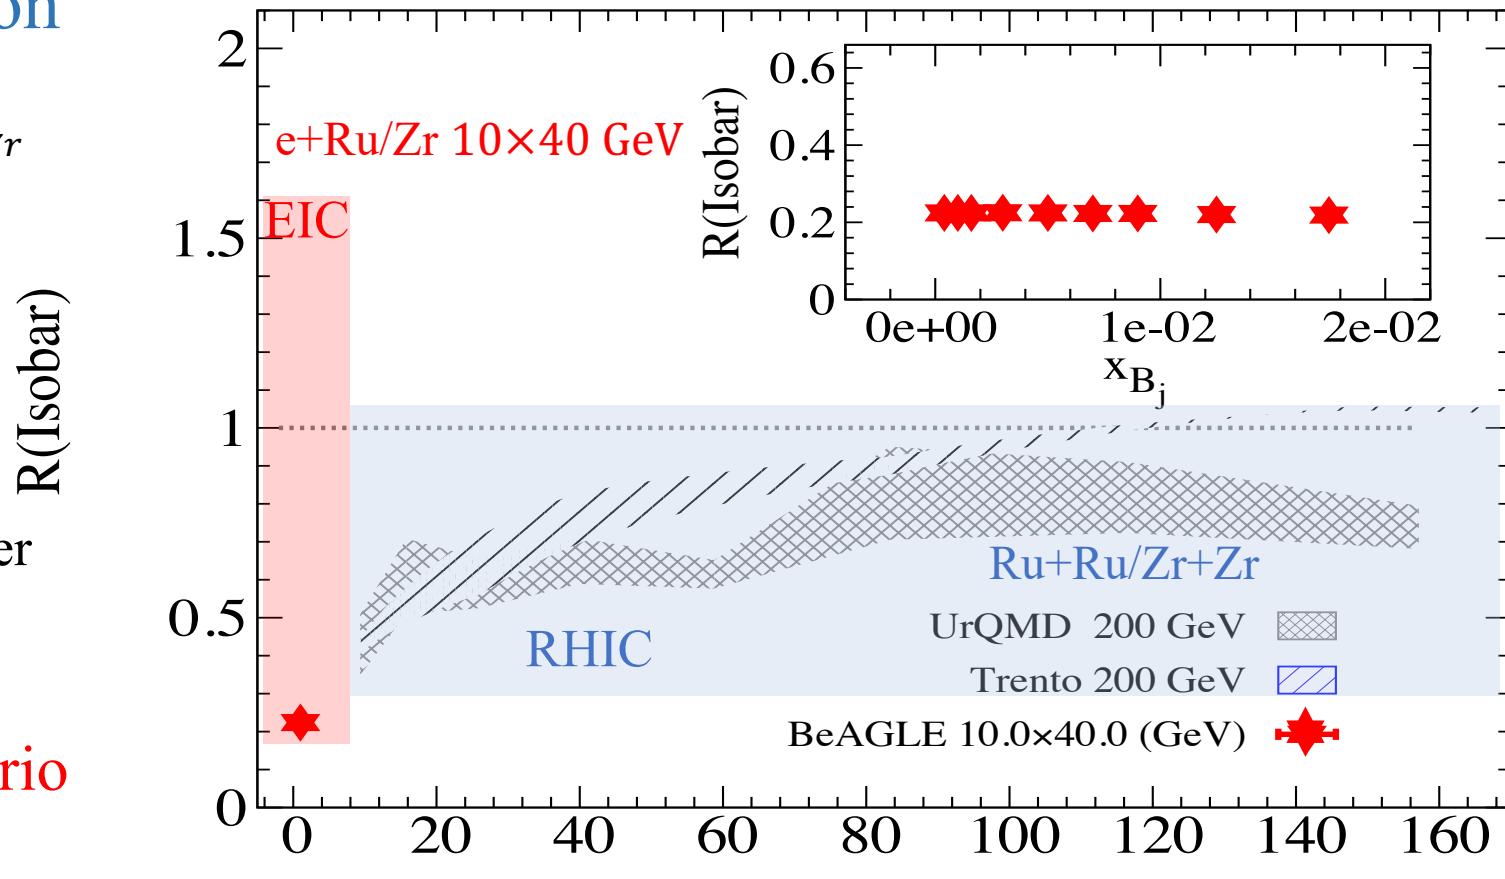

$$R(\text{Isobar}) = \left( \frac{B_{Ru}}{\Delta Q} \right) \left( \frac{\Delta Z}{A} \right) \quad \Delta Q = Q_{Ru} - Q_{Zr}$$

$R(\text{Isobar}) > 1$ ;  
Gluons carry the flow of baryon number

$R(\text{Isobar}) < 1$ ;  
Valence quarks carry the flow of baryon number

- $R(\text{Isobar})$  is independent of  $x_{B_j}$ 
  - ✓ Consistent with the quark's scenario

BeAGLE shows value consistent  
with the quark's scenario

Thank You

$\langle N_{\text{part}} \rangle$
