

Workplan/Annual Report Reorganization Discussion

David Brown
Chair of too many things

National Nuclear
Data Center

USNDP Meeting, 13 Nov. 2023

Nuclear Data Week 2023, 13-17 Nov. 2023

@BrookhavenLab

Our work areas, as defined in each Annual Report & Workplan

NNDC Facility Operation

- Management
- Library
- Computer Operation

Coordination

- National
- International

Nuclear Physics Databases

Information Dissemination

- Nuclear Data Sheets
- Customer Services
- Web Site Maintenance

Nuclear Structure Physics

Nuclear Reaction Physics

My questions about this organization

Coordination

- We coordinate projects, why aren't the tasks grouped with the projects?
- We have a lot of "Participate in IAEA activities" type entries. Is this really equal in scale to a major task like a mass chain? Participation != coordination.

Nuclear Physics Databases

- Why are the databases separate from the Physics entries? ENSDF is supposed to be the "summary" of all of nuclear structure

Workforce development and DEI: where is it?

Keith's Idea

NNDC Facility Operation

- Management
- Library
- Computer Operation

Outreach

- Nuclear Data Sheets
- Customer Services
- Web Site Maintenance
- Workforce development & DEI

Nuclear Structure Physics

- include relevant databases
- Include relevant coordination

Nuclear Reaction Physics

- include relevant databases
- Include relevant coordination

What about activities that don't neatly fit?

Astrophysics

Work supporting Space/Fusion/whatever

Are we stealing from core activities?

Or are we expanding core activities?

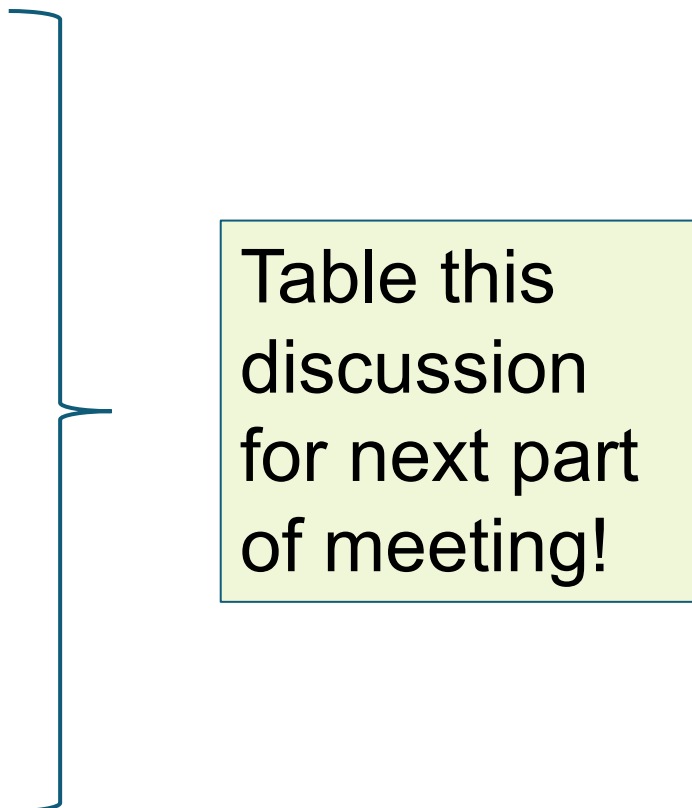

Table this discussion for next part of meeting!
