IT Services Update - Liaison - 4/6/23

- Lustre: sPHENIX servers being racked now (JBODs done)
  - Installed by end of next week
  - Need to schedule 2-3 days downtime to upgrade existing & add new
    - might have to be early May if possible (schedule is very tight)
- GPFS: Phenix offline for short time due to old mount problem
- CSI GPFS: new hardware ready, need to configure & sync data
- USBelleII Rucio DB index problem this week, debugged & fixed
- CVMFS: New RHEL7 VMs & NFS nearly ready (replaces old HW)
- NX: rebuilding of test NX with RHEL8 & NX 8 complete
  - Need some user testing
- New staff: Mark Berry & Zeyi (Tommy) Tang
