

Y. Kwon, Yonsei Univ.

- Involvement in ITS2/ITS3@ALICE
 - Participation in the design of front end, ALPIDE
 - Chip characterization (probecard production)
 - Production test of ALPIDE (80%)
 - One postdoc in the design team (3 years as of Sep. 2023) and students
- Electron endcap tracker (idea initiated with M. Liu of LANL)
 - 30 μ -thick Si sensors with pixel size of 18 μ . Fully digitized and sparcified readout @ 1 Gbps or above, Sensor-only for the active area
 - Operation condition for ePIC will be different (Power/Readout optimization in design?).
 - Very tight schedule for ITS3
- Exclusive electroproduction of J/Ψ off nuclei
- Important decisions (Plan for fiscal year 2024): May in Korea
