

# ePIC Collaboration Status

John Lajoie and Silvia Dalla Torre

ePIC General Meeting, May 26, 2023

## REMINDER:

Major communications at the previous meeting are also included, skipping details

For more information, visit the May 11 agenda with slides and meeting recording at:

<https://indico.bnl.gov/event/19185/>

10:30

→ 11:30

**General Status and Updates**

Conveners: John Lajoie (Iowa State University), Silvia Dalla Torre (INFN, Trieste)

10:30

**ePIC Collaboration Status**

Speakers: John Lajoie (Iowa State University), Silvia Dalla Torre (INFN, Trieste)

10:55

**EIC Project Update**

Speakers: E. C. Aschenauer (BNL), Rolf Ent (Jefferson Lab)

11:20

**Discussion**

Speakers: John Lajoie (Iowa State University), Silvia Dalla Torre (INFN, Trieste)

11:30

→ 11:50

**Overview of Software and Computing**

Speaker: Markus Diefenthaler (Jefferson Lab)

11:50

→ 12:10

**Report from Software and Analysis Joint Meeting**

Speakers: Markus Diefenthaler (Jefferson Lab), Rosi Reed (Lehigh Unive

12:10

→ 12:30

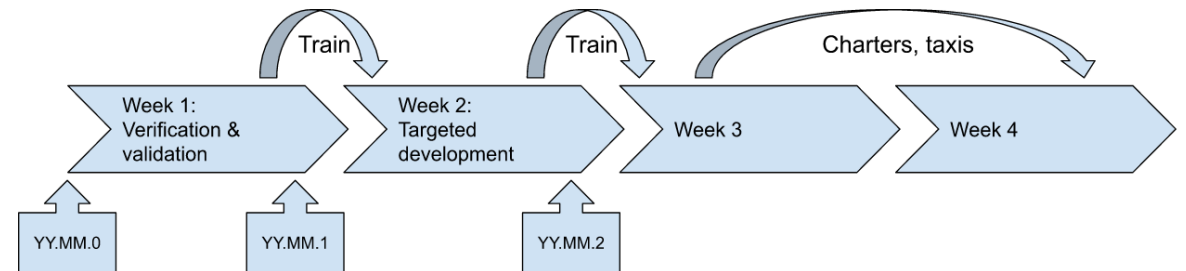

**Report from Background Task Force**

Speaker: Zhengqiao Zhang

With focus on the on-going simulation and analysis effort

# SIMULATION EFFORT

- *This slide is not to spoil the second part of the today agenda !*
- It is to help focusing on the simulation activity and invite you to engage in this effort so central for ePIC success following the given project timelines
- **We will learn about**

- The new structure for the simulation campaign
- The effort on progressing for well-defined reconstruction tools (as arising from a joint Soft/Comp-Analysis meeting on May 17)
- The relevant progress in background studies and related availability of background “data”

# VISIT at CERN

- **Visit at CERN** (April 24-25) – SP, TC + PM Meetings @ CERN
  - Green-light from CERN management to have **ePIC Recognized Expt. Status**, procedure will follow
  - **ALICE-ITS3: main focus of the visit**
    - Basis for a formal agreement CERN-EIC project established
    - Technical collaboration already started
  - **PID R&D Meeting** about ePIC-LHC synergies in this detector sector

- **May 2<sup>nd</sup>—Results of CC vote:**
  - Endorsed motion to initiate change control for pfRICH, Imaging EMCaI
    - Actions towards change control process started
  - Working group structure endorsed, Convenor nominations endorsed
- **NEW:** preparing the elections to form a first set of standing Committees
  - Details in the next slide by the CC-chair

# Collaboration Council Committees

Reminder and request from the Collaboration Council Chair:

*The standing Collaboration Council Committees have essential roles in how we collaborate, share the work, and recognize accomplishments.*

*Their chair-lines are elected by the Collaboration Council following nominations. These nominations are collaboration-wide.*

*Please actively support the Election Committee in their role in ensuring fairness and timeliness in these important elections.*

The Election Committee has requested nominations for chair-line candidates of the:

- DEI committee
- Membership committee
- Conference and Talks committee
- Publications committee

Nominations, including self-nominations, can be submitted via:

<https://forms.gle/CcXMe22c5BLyMVLk6>

# Self-organized Early Career effort

*Early career members as defined in ePIC Charter:*

“Early career members of the Collaboration comprise all graduate students and those with no more than five years post PhD experience (not counting career interruptions).”

*More from the Charter:*

- Three CC members from the early career group elected by their peers, at least one of them being a graduate student ← ongoing effort
- One EB member elected from the early career group

# Self-organized Early Career effort

## **Kick-off initiative** on March 6:

- a **survey** by questionnaire distributed by the CC-chair with the goal to **self-identify early career members** within ePIC → **early career e-mail list**

## **Self-organized election** of the three CC members from the early career group

- “The volunteer ePIC early-career election team”:
  - Derek Anderson
  - Alex Jentsch
  - Tyler Kutz
- **Nomination process** : May 5-19

# Self-organized Early Career effort

- **Current step:**
  - Collecting the statements of the nominees and make them public
  
- Then, **election** step
  - ranked-choice voting
  - The early-career colleagues should be enrolled (registered in the dedicated e-mail list) to receive a ballot
  - e-mail list: <https://lists.bnl.gov/mailman/listinfo/eic-projdet-earlycareer-l>
  - Mattermost channel: <https://eic.cloud.mattermost.com/main/channels/early-career>
  - Institute Representative, please, invite your early-career collaborators to subscribe the e-mail list

# Change Control Process

- **Imaging EMCal**
  - Regular meetings with PM and Imaging EMCalgroup
  - Working to integrate cost and schedule into P6 (S. Bazilevsky)
  - Focus on CD-3A long lead, cost, design and construction times
  - Ongoing work to optimize/integrate Imaging EMCal design
    - An in-person ePIC Barrel Imaging Calorimeter workshop at Argonne is being organized for June
  - *Work required before documentation for change control can be prepared*
- **pfRICH**
  - Working to integrate cost and schedule into P6 (B. Zihlmann)
  - Preparing documentation for change control process
  - More straightforward case for change control, *plan to go first*

# ePIC is in full swing !

- **General meetings**, bi-weekly
  - Alternating the time
  - Friday Mornings: 10:30AM ET (same as current), as it is today
  - Thursday Evenings: 7PM ET (2.5 hours earlier), please take note of the new time
- **CC meetings**
  - On general meeting off-weeks
  - Presently, approximately every months
  - The participation of the institutional representatives is mandatory
  - CC meetings are open to the whole Collaboration, a part closed sessions, when needed
- **TIC meetings**, weekly
  - Monday at 9:00AM ET
  - DSC representation is mandatory!
  - TIC meetings are open to the whole Collaboration
- **Software and Computing Meetings** , weekly
  - Wednesdays 11:00 AM ET
  - Main meeting for ePIC Software and Computing
- **Coordinator meetings**, weekly
  - Coordinators and SP-office only

# Organization resources, what is new

## In wiki

- A page dedicated to conference talks (<https://wiki.bnl.gov/EPIC/index.php?title=Conferences>)
- Updated information about the collaboration structure (<https://wiki.bnl.gov/EPIC/index.php?title=Collaboration>)

**Conferences**

Upcoming conferences of interest and submitted abstracts

**SPIN 2023**  
September 24-29, 2023  
<https://indico.jlab.org/event/667/>

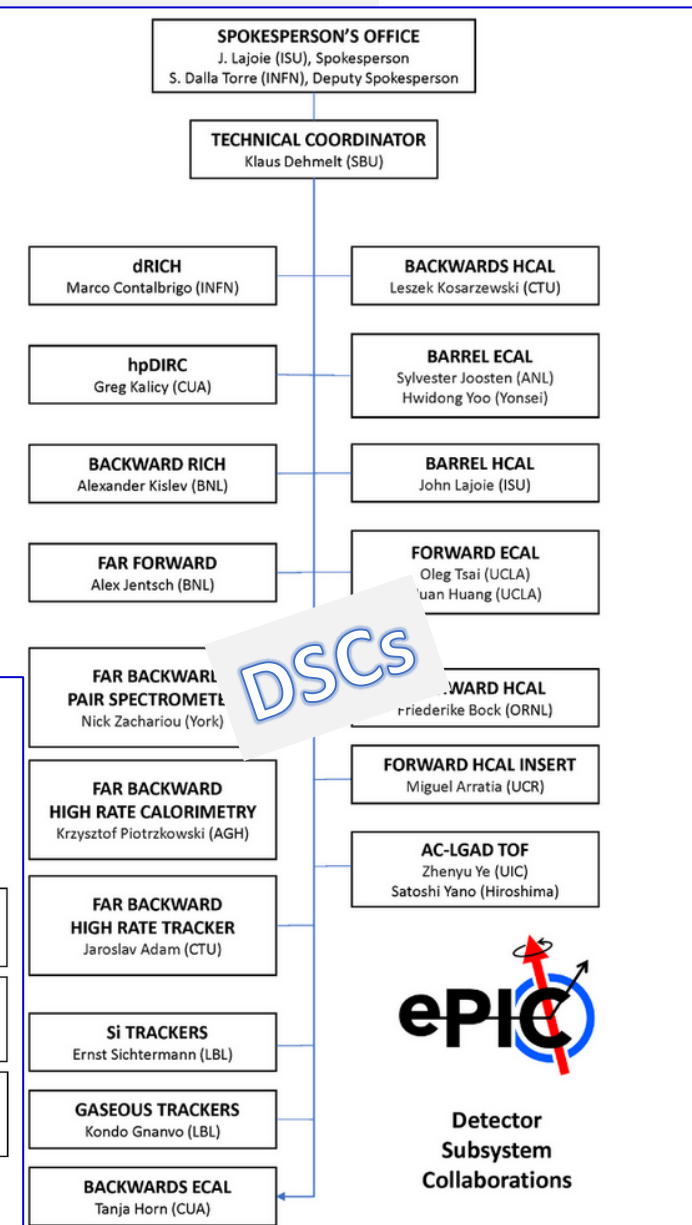

April 11-14th, Minneapolis, MN  
<https://indico.jlab.org/event/667/>

Invited Talk:

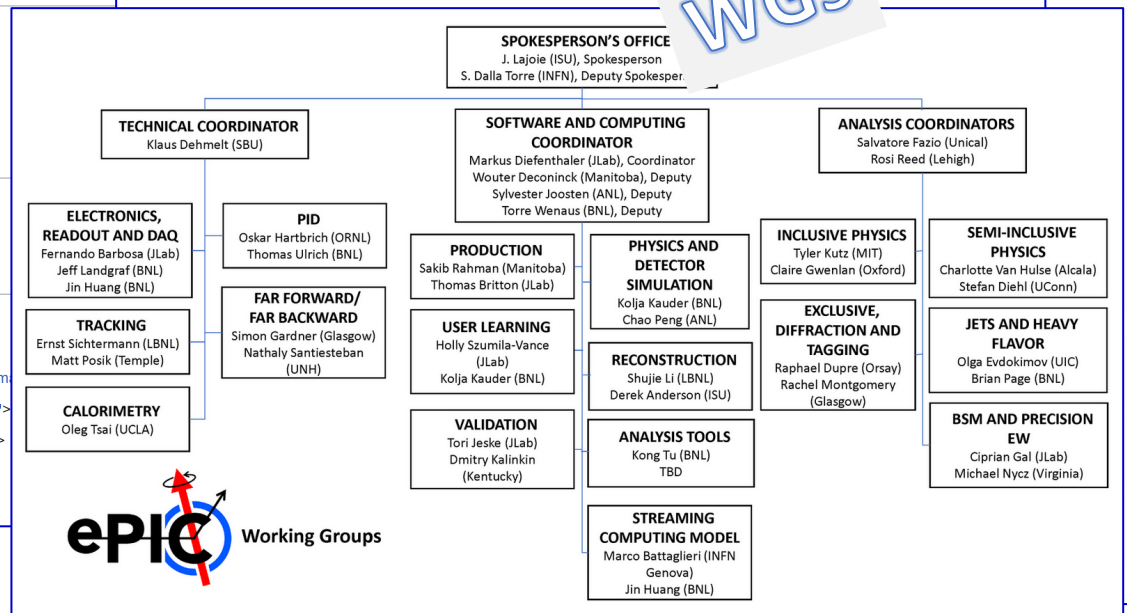

- Joerg Reinhold, "ePIC Overview"

**Hard Probes 2023**

*conferences*

## WGS

**Collaboration Council**

**Collaboration Council Chair:** Ernst Sichtermann <[epsichtermann@lbl.gov](mailto:epsichtermann@lbl.gov)>

**Collaboration Council Vice-Chair:** Bernd Surrow <[surrow@temple.edu](mailto:surrow@temple.edu)>

**Spokesperson's Office**

Spokesperson: John Lajoie <[lajoie@iastate.edu](mailto:lajoie@iastate.edu)>

Deputy Spokesperson: Silvia Dalla Torre <[Silvia.DallaTorre@cern.ch](mailto:Silvia.DallaTorre@cern.ch)>

**Coordinators**

Technical Coordinator: Klaus Dehmelt <[klaus.dehmelt@stonybrook.edu](mailto:klaus.dehmelt@stonybrook.edu)>

Software and Computing Coordinator: Markus Diefenthaler <[mdiefent@ornl.gov](mailto:mdiefent@ornl.gov)>

Deputy Software and Computing Coordinator (Operations): Wouter Deconinck <[w.deconinck@umt.edu](mailto:w.deconinck@umt.edu)>

Deputy Software and Computing Coordinator (Physics): Sylvester Joosten <[sjoosten@anl.gov](mailto:sjoosten@anl.gov)>

Deputy Software and Computing Coordinator (Simulation): Chao Peng <[cpeng@bnl.gov](mailto:cpeng@bnl.gov)>

Co-Analysis Coordinator: Rosi Reed <[rosireed@lehigh.edu](mailto:rosireed@lehigh.edu)>

Co-Analysis Coordinator: Marco Battaglieri <[m.battaglieri@cern.ch](mailto:m.battaglieri@cern.ch)>

## management

Detector Subsystem Collaborations

General meeting, May 26, 2023

# Organization resources, what is new

- With **ePIC INDICO category** ( <https://indico.bnl.gov/category/402/>):
  - New subcategories for TIC, CC WGs and DSCs
- New **mailing lists** (lists.bnl.gov), for TIC and PWG conveners

... and do not forget our MATTERMOST channels:

# Organization resources, what is new

## An effort to start an ePIC web presence:

- The only ePIC web presence so far: our precious **wiki page**
- There is clear need for more, starting from some key basic ingredients:
  - **An initial website, a phone book, document management**

## SP-office plan:

- form a **small task force to initiate implementing the basic element** with an effort on a **short-time scale** and **articulate the problems** that need to be faced as part of a **longer-term strategy**
- then, **building-up on the initial effort by a larger body/committee at the collaboration level**
  - Of course, consulting the collaboration actively soliciting the collaboration input

# Organization resources, what is new

**An effort to start an ePIC web presence, first step:**

**Four main efforts** as follows:

- 1. Technical support:** Implementation of the technical solutions and interface with the host labs, in particular with BNL - **Maxim Potekhin**
- 2. Website design:** The overall structure and navigation within the website and integration with external resources - **Thomas Ullrich**
- 3. Document management:** An initial solution to archive talks, images, technical notes, etc. in a way that they can be easily accessed by the collaboration - **Peter Steinerg**
- 4. User-centered design:** Ensure that web resources are properly organized and can be navigated in a way that is useful and straightforward, both to existing and new collaborators - **Markus Diefenthaler**

# Organization resources, what is new

An effort to start an ePIC web presence, first step:

Four main efforts as follows:

1. **Technical support:** Implementation of the website, in particular with BNL - **Markus**
2. **Website design:** The website should be designed with external resources - **Markus**
3. **Document management:** The website should be designed in a way that they can be easily accessed and managed - **Markus**
4. **User-centered design:** The website should be designed in a way that is user-friendly and can be navigated in a way that is user-friendly - **Markus**

Thank you, Maxim, Thomas, Peter and Markus for your extra effort to realize an initial ePIC presence on web !
