

# AI4EIC 2023 Annual Workshop

## Wednesday, November 29, 2023

### AI/ML for Data Analysis and Theory (2:00 PM - 5:05 PM)

-Conveners: Vinicius Mikuni; Brandon Kriesten

time	[id] title	presenter
2:00 PM	[20] The EXCLAIM collaboration approach to deeply virtual exclusive processes	LIUTI, simonetta
2:25 PM	[21] Decoding inverse problems in QCD with ML-based algorithms	LI, Yaohang
2:50 PM	[22] What can AI do for lattice-QCD parton distribution calculations?	WEN, Huey
3:15 PM	Coffee Break	
3:30 PM	[7] Interpretable Machine Learning applications to Jet Background Subtraction	HUGHES, Charles
3:55 PM	[24] High Dimensional Unfolding using Machine Learning	NACHMAN, Benjamin
4:20 PM	[23] Hadronization Models Using Machine Learning	SZEWC, Manuel
4:45 PM	[25] Discussion
