

Far Forward/Far Backward (Cross-Cutting WG) meeting

Co-conveners:

Simon Gardner (University of Glasgow)
Simon.Gardner@glasgow.ac.uk

Nathaly Santiesteban (University of New Hampshire)
nathaly.santiesteban@unh.edu

Goals:

- Bridge between the FF and FB working groups.
- Identify the common needs of the detector subsystems.
- Boost communication channels among the groups.

Plan:

- Hold a monthly meeting (probably the last week of the month) or as requested.
Time: Instead of the FF weekly meeting (or any FB meeting if wanted).
- Each detector subsystem may present a verbal update.
- As requested, we can invite speakers from other working groups to address specific questions relevant to the FF/FB WG)
