Prod WG development update

06/01/23

Thomas Britton

Production Development work

- Jlab xrootd mirror
 - Done
- ePIC OSG Project
 - Done
- JLab ePIC OSG submit node
 - VM - almost “done”
- Production Library
 - List of MC produced - Active development
- Convener BNL compute accounts
 - Paperwork submitted

In other news

- First meeting with the OSG pATH collaboration was held
 - This meeting will allow collaborations to interface with OSG better
 - Closer contact => better addressing of concerns/problems
- Sakib talked to Paschal and is working on documenting a preferred connect method (ci-connect https://github.com/eic/job_submission_condor/blob/3-feature-update/Documentation/docs/campaign_setup_instructions.md)
 - Believe this will be deprecated for centralized productions in the future but for now the MC must flow
