

Update on eRDs and PEDs

- UK in kind contribution to all eRD proposals for the ePIC SVT, as in previous years, plus funding request for Oxford.
- Oxford's eRD104 request will go via PED.
 - It will go via JLab, and the process can start now.
 - It needs a statement of work submitted to Brian Eng.
- Oxford's eRD111 request will go via R&D.
 - DAC meeting on 28 and 31 of August for discussion and approval of the eRD proposals.
 - DAC report and letters to confirm allocated budget for each eRD will be received some time after the meeting.
 - Once letters are received, institutes write statements of work and start procedure to setup contract with BNL (if not already in place) and receive funding.
