

Jiheee Kim

# Where it all started... Postdoc in the Physics Department

Born in  
South Korea

Earned  
BS Astronomy  
MS Astronomy

Joined  
Astroparticle  
Physics  
Experiment  
(international  
collaboration)

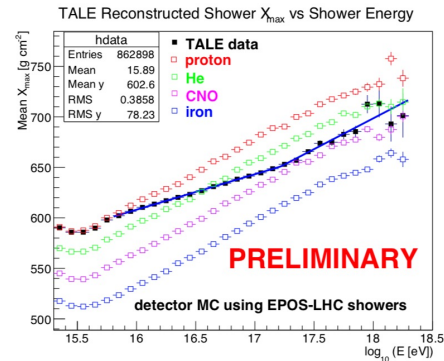

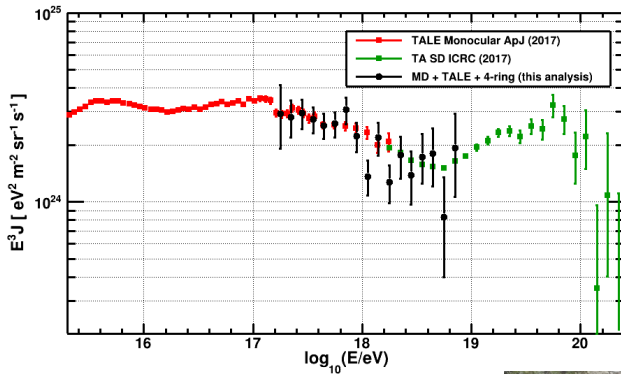

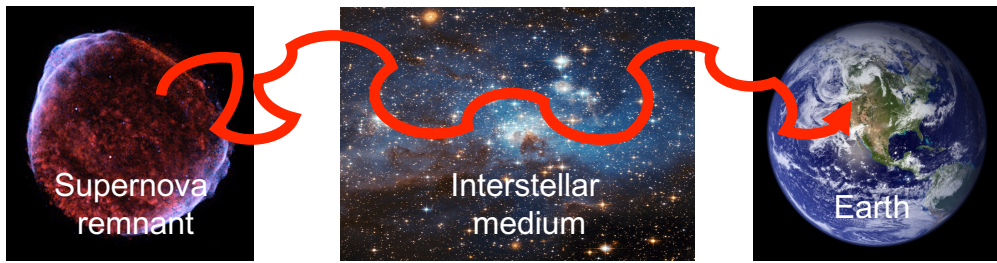

Came to Utah, US

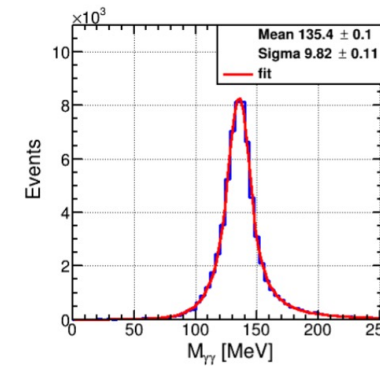

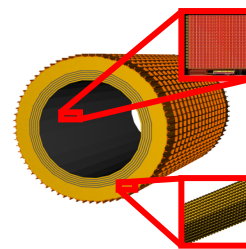

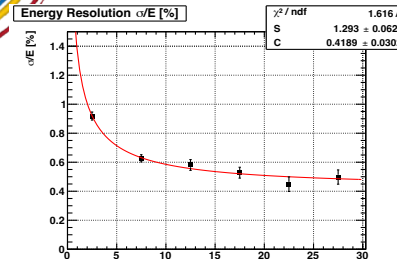

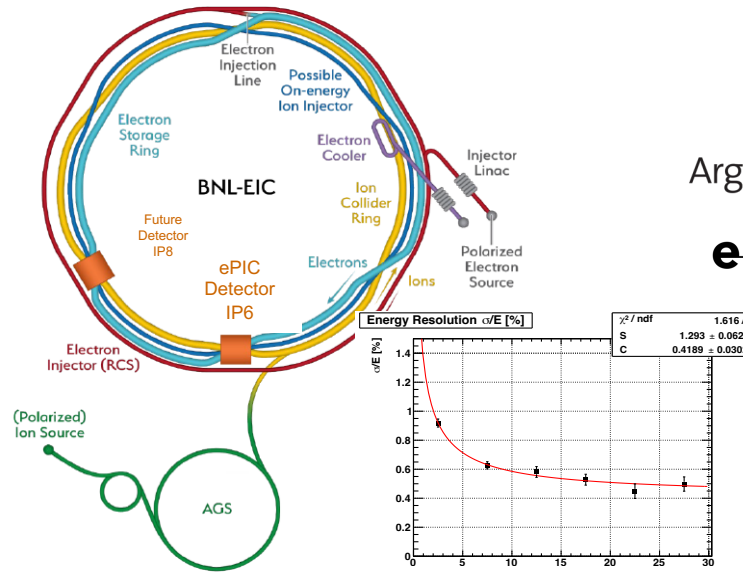

Earned  
PhD Physics in  
Experimental  
Particle  
Astrophysics

Moved to Argonne  
as a postdoc

Now at Brookhaven

## The Electron Ion Collider at BNL

Participating on developing detector simulation and benchmarks for design optimization to validate detector performance for EIC.  
 Currently working on EIC second detector – broaden physics program of EIC.
