

# 2022 reconstruction jobs

## ...and the 3-day CRS limitation

Estimated job time in 64-bit optimized

Estimated job time in 64-bit optimized

- Roughly ~2500 jobs expected to be in a category needing more than 3 days to complete (out of a few hundred thousand for 2022 data)
  - +/-15% variation expected from these estimates, so 4-day limitation isn't a guarantee
- STAR would like to request a queue, reserved for special occasion(s), to allow >3 day jobs (perhaps a limit of 6 days?) on a portion of the farm
