

Exclusive, Diffractive, Tagging WG

Meetings restarted

- Deuteron Study
 - Zhoudunming « Kong » Tu (BNL)
- Coherent VM production
 - Michael Pitt (Ben Gurion U.)

Meeting on Monday (TBC)

- Analyses looking into B0 changes are on-going

Exclusive, Diffractive, Tagging WG

Task List

- Implement benchmarks for YR & proposal channels
 - **Highest priority are DVCS and at least one tagged process**
- Improve reconstruction in the FFwd region
 - **Beam optics for various configurations**
 - **Treatment of more nuclei (He4 He3...)**
- Study photon/ π^0 separation in calorimeters
 - **Particularly implications for DVCS analyses**
