- ... and finally thanks to everyone who attended, in-person or virtually, for your hard work and dedication to making ePIC a success!

# January 2025 ePIC Collaboration Meeting Venue

Villa Mondragone – Via Frascati, 51, 00040, Monte Porzio Catone (Rome) – Italy January 20 – 24, 2025

**Villa Mondragone** is the Conference Center of the University of Roma Tor Vergata, located in the hills overlooking Rome.

It was built starting from 1573 and it hosted the popes for their summer residence during the following century.

It is in Villa Mondragone that:

- pope Gregory XIII initiated in 1582 the reform of the **Gregorian Calendar** now in use
- **Galileo Galilei** with eight scientists in 1611 pointed his **telescope** from Gianicolo (in Rome) to Villa Mondragone to test it
- **Guglielmo Marconi** in 1932 established **the first radio connection** between Villa Mondragone and the Vatican

**Electron-Ion Collider**
