

Run24 Au+Au

- All subsystems are up and running. All triggers in physics production.
- Main physics: Minimum-bias, +UPC
 - Expect to collect 1-2B ($4 \text{ kHz} * 12 \text{ hr/day} * 10 \text{ days} \sim 1.7\text{B}$)
 - BUR Goal: Min-bias 18B (from run23-25), 6.5B collected from Run23
- Requested ZDC rate: 13 kHz
- High background in Blue (as in Run23) to be improved
