

Dear all,

Here is the minutes from today's meeting.

o Run24 preparation <itaru>

- Itaru steps down from the commissioning manager of INTT in Run24 to take the duty of the spin coordinator. **Genki** will take over the commissioning manager in Run24. He will be in charge of planning/executing commissioning program from now on. His current loads are to be succeeded to Akitomo so that Genki can focus on his new charge. Itaru will stay as L2 manager of INTT.

- The hot channel masking feature is added to the Run24 preparation list since it is crucial to run the DAQ by the beginning of the run. Thanks to Cheng-Wei for setting up wiki page below for the Run24 preparation list. Let's keep updating and make sure all items are addressed by the beginning of Run24.

o Feedback list for Takashi's talk

- **Takashi** made the excellent report in the collaboration meeting. He got extraordinarily feedback and requests from the audience. This is because the INTT data is under high interest of the collaboration. Thank you for the INTT team for taking such a valuable data and making progress in the analysis. Let's continue advancing INTT data.

- Collaboration request us to develop the analysis note. Please prepare the document to be developed associated with hot/cold channel masking, dN/deta analysis, z-vertex reconstruction within a next 0.5 ~ 2 months.

- The analysis tools are to be developed in Fun4All framework to be official. The z-vertex code is aiming to be official within a month or so.

- There is a request from the tracking group to implement the hot channel masking to the cosmic rays which is bothering their development. **Wei-Che** volunteers to develop a new algorithm besides the beam data to identify the hot channels in cosmic ray with a help of Genki.

Regards,

-itaru

Dear all,

We'll have the weekly meeting in following time.

Dec. 6th Wednesday 8AM in BNL = Dec. 6th Wednesday 10PM in Japan = Wednesday 9PM in Taiwan

Since there is sPHENIX Collaboration meeting going on this week, the meeting has be ended

within 30 minutes. Let's only discuss about something urgent. Takashi just gave a nice talk, and he got many feedbacks from the audiences. We have to respond to each of them in timely manner. Also we would like to discuss about the manpower system towards Run24.
