

Feedback from audiences to Takashi's talk

- Relieve 3-sigma cold/hot channels.
- Examine with/without DAC0 channel to see the effect of hot channels.
- Timeline of cold/hot channel masks and reconstructed z-vertex
 - People expect rather more frequent update in software/tracking meetings.
- Release analysis codes to the public
 - Need to accelerate the transition to Fun4All framework
- Develop analysis note
 - People wants to know more details rather than slides.
