

Updates from ACs

Rosi Reed (Lehigh) - Salvatore Fazio (Calabria)

○ New TDR timeline

- Presented by John at the General Meeting on March 8

- “pre-TDR” (~60% design completion) comes first [CD-2]
- Final TDR delayed [CD-3]
- The Physics paper will be most probably aligned with the
- **Consequence:** priority goes to performance plots for TDR (we need them first)
- **Each PWG: Identify TDR plots soon.** Next: common PWGs+DSTs meeting
 - Expect more info/requests from us soon

Updates from ACs

Rosi Reed (Lehigh) - Salvatore Fazio (Calabria)

○ Released Plots by PWGs

- last year we have agreed on reproducing ATHENA/ECCE/CORE studies (not necessarily a copy of them but...)
- last year we had agreed to keep track of released performance plots by:
 - keep plots updated online (for now on the wiki – under each PWG)
 - attach a brief description to each released plots
 - so far: **none of the PWG has released a single plot**
 - How do we change this course?

○ Generic plots requested by the Technical Coordinator

- Silvia has requested us to produce, for **electrons, pions, Kaons and protons**, plots of
 - **momentum vs η**

Updates from ACs

Rosi Reed (Lehigh) - Salvatore Fazio (Calabria)

○ New Workforce – Indian + Egyptian +... Institutions

- We are in full swing matching Institutions to proposed tasks
 - This considering preferences of those Institutions and their workforce
- All of you have already received emails with names of students/postdocs
 - Please help them getting onboarded
 - Try to assign each group to an expert (can be a convener or someone else)
 - Proactively reach up to them to get updates
 - Conveners can modify their association to TASKS as their skills and interests will be better known
 - > Just keep all in the loop, so we can update the google spreadsheet
