

ePIC C/S Meeting | Calo Reconstruction Progress

- Significant progress made in calo. reconstruction software in 2023!
 - **Feb:** clustering task force
 - › **Adjacency matrix [02.09]**
 - **Apr:** Burning Calo workshop
 - › LFHCAL in EICrecon [04.13]
 - › **PODIO-EICrecon integration [04.14]**
 - **May:** joint physics-reconstruction tasks identified
 - **Jun:** PR666, multifactories + cluster matching
 - **Jul – Oct:** consolidation, modernization, and increasing realism
 - › EnergyPositionClusterMerger introduced [08.14]
 - **Nov:** Omnifactories appear [11.30]
 - **Jan:** TDR priorities identified

☞ **All-in-all:** calorimetry entered 2024 in very good shape!

ePIC C/S Meeting | Identified TDR Tasks

- **Right:** identified calorimetry TDR needs & wants
 - **Big 3:** these are fairly labor-intensive tasks which will require changes in EICrecon
 - a) Improved truth-cluster connections
 - b) Improved cluster splitting, merging
 - c) Improved digitization (esp. ability to do channel masking)

Identified Data Model Needs

- ☞ **Improved truth-Cluster connections**

Identified Reconstruction Needs/Wants

- Clustering implemented in all systems
- ☞ **Cluster splitting/merging**
- ML Integration
- ☞ **Digitization noise, noise-masking and system-specific digitization model implementations**
- Better neutral identification
- Easier access to janadot output

Identified Simulation Needs/Wants

- Enhanced realism in BEMC implementation and implementation of end-of-sector box material
- Dedicated studies of HGCROC vs. waveform digitizer in BEMC
- Physics-driven performance studies for nHCal
- Update ZDC default to SiPM-on-tile
- Enhanced realism in pEcal implementation

ePIC C/S Meeting | Identified TDR Tasks

(a) Improved truth-cluster connections

- Identified previously that this could be addressed algorithmically (not in data model)
- **Workforce:**
 - › Virginia Bailey, Peter Steinberg, Fredi, me
- **Timeline:**
 - April Campaign:** proposal for changes presented, discussed, and approved
 - May Campaign:** changes implemented

(b) Improved cluster splitting/merging:

- Task force formed, developed critical tools for tasks while I was at ORNL
- **Workforce:**
 - › Peter Steinberg, me
- **Timeline:**
 - April Campaign:** splitting/merging needs identified, outline of algorithm(s) in place
 - May Campaign:** algorithm(s) fully implemented

(c) Improved Digitization:

- Presented initial sketch of possible changes to EICrecon in [LFHCAL weekly meeting](#)
- **Needs more discussion to establish workforce & timeline**
