

Proposals for ePIC Membership

from the ePIC Charter:

After initial formation, new institutions are admitted to EPIC by a super-majority vote as described in Voting and Elections provisions of this Charter, after a proposal made to the Collaboration Spokesperson and Executive Board.

The Spokesperson's Office follows the same set of steps for every new institution:

- Meet with representatives of the institution proposing membership
- Make introductions and facilitate conversations with DSC and WG leadership
- Review plans for contributions to ePIC prior to forwarding proposal to CC Chair

Currently working with five additional institutions to develop their membership proposals.

New Proposal for Membership Today:

- Kent State University
