

Update from Analysis Coordinators

- Next joint meeting with S&C (Wed. May 22 11:00 ET)
 - <https://indico.bnl.gov/event/23065/>
 - We'd like to show physics analyses related to the simulation campaign at his meeting
 - Volunteers?
- Question from S&C: Are the kinematic variables in the output of our simulation campaigns sufficient?
 - We need to ensure that all relevant variables are included
 - Discussed earlier, checking whether there were any updates
- Do the PWGs know of any MC event generator validation efforts that are ongoing → Validating our MC samples will be an important step
- Time to start planning workfests for the July collaboration meeting
