XRootd Write Access Policy

Sakib Rahman (BNL) and Thomas Britton (JLAB)
May 14, 2024

Process to get Xrootd Write Access

1) Contact production WG to get added to [jlab comanage registry](registry)

2) On any machine running eic-shell

   a) htgettoken -a htvault.jlab.org -i eic

   (Authenticate by web once using CIlogon. Can be renewed from command line from that point onwards.)

   b) xrdcp test.txt xroots://dtn2201.jlab.org//eic/eic2/EPIC/xrdtest/

   c) xrdfs xroots://dtn2201.jlab.org rm /eic/eic2/EPIC/xrdtest/test.txt

Draft Policy Outline

1) Who should have access?
   a) Physics WG conveners
   b) Active maintainers of dataset repos
2) Which location can they write to?
   a) Create subdirectory tied to usernames in /eic/eic2/EPIC/xrdtest?
3) What should it be used for?
   a) Staging new datasets for integration into production
   b) Running user-run mini campaigns?
4) Should we (how to) limit access to actively contributing users?
   a) What should be the condition for removing people from access registry?
